

THE COMPLETE TUBE PROCESSING SOLUTIONS

CUTS PIPE UP TO
33"
DIAMETER

CUTS TUBE TO
24"

**3KW TO
20KW**
FIBER LASER

CUTTING FUNCTIONS

- STRAIGHT
- MITER
- SADDLE
- COPE
- SLOTING
- HOLES
- OPTIONAL 45° BEVEL CUTTING

WHY CHOOSE THE LIGHTNING ROTARY PRO?

- ✓ Process round, square, rectangular, oval, angle, channel, and I-beam profiles on one machine
- ✓ Automated loading and material handling maximizes throughput
- ✓ Optional 45° bevel cutting produces weld-ready parts with fewer secondary operations
- ✓ Servo-driven automatic centering chucks deliver fast setup and exceptional cutting accuracy
- ✓ Built for high-volume production

WARRANTY

3-Year Warranty

TECHNICAL SPECIFICATIONS

Round Profiles	Up to 33"
Square Profiles	Up to 24"
Cutting Process	Fiber Laser
Lengths	Up to 60'
Laser Source	Up to 20kw
Positioning Accuracy	±0.001"

MACHINE FEATURES

- Auto-Centering chucks
- Intelligent tube nesting software
- Material Loading & Unloading
- High-Speed tube indexing
- Multi-Profile tube processing
- Integrated Shape Library
- Smart toolpath optimization
- High-Speed Production Cutting
- 3-Year Warranty

OPTIONS

- Fiber Laser Source 3.0kW to 20.0kW
- Semi-Auto infeed
- Fully automatic bundle loading
- Outfeed Conveyor
- 45° bevel cutting head
- Nitrogen Generator Systems
- Air Compressor Pkgs
- Dust & Fume extraction systems

COMPATIBLE MATERIAL PROFILES

SQUARE

ROUND

RECTANGLE

OVAL

CHANNEL

WIDE FLANGE

ANGLE

I-BEAM
